Hi team – attached is the treatment plan with comments on what we are willing to no longer require based on the technical discussions this morning, and what edits must be made to protect public health. Thanks-Jacque

This works for me. I need to be on a national call at 12:30 and then at a school performance from 1-2 today. I'm otherwise available for a team call and think it's necessary to have one today. I would like to be able to tell Mike today that EPA Senior managers want the amendment signed by Jan. 1st, and that timeline is dependent on quick resolution of the technical issues. I need to better understand where you guys are on the technical issues before I can appropriately gage what to tell Mike. Thanks-Jacquie

Enforcement Confidential, Deliberative, and Subject to Attorney/Client Privileges

Hi All,

Roger, Kevin, and I just talked to DuPont. We have some remaining disagreements with DuPont, but I am hoping we can resolve them. I propose that the technical people have a call to decide where we stand and then we will have a team call. I think, and I believe Roger agrees based on what he said on the call,

Is everyone okay with this approach? I can schedule a team call for later today. Lynne, may we use your number?

Thank you,
Jenny
